- **What is it?** If you've watched Jane Austen movies such as "Pride and Prejudice" or "Sense and Sensibility," you have seen English country dancing. It was popular in English courts and villages in the 17th, 18th, and early 19th centuries, and was revived in the 20th century.
- **Who will I dance with?** No partner is required as it is the custom for people to change partners after each dance.
- **Who can do this?** If you can walk and know your left from your right, you can do these dances; no fancy footwork is required.
- **What to wear?** Comfortable clothing and soft-soled flat shoes.

Masks are optional, but as a courtesy to other dancers, please bring a mask with you, and wear it if your partner requests it. We encourage the use of hand-sanitizer and hand-washing.
